

ISIS GAZETTE

Imperial Shih Tzu Information Society

Volume 1, Issue 1

June 2008

Louie from Denise Gooch and Hidden City Imperials watch for her new website coming soon.

Special points of interest:

- *ISIS Cookbook*
- *ISIS Quilt Raffle*
- *How to Email Photos*
- *ISIS Meeting*

Welcome To The New Society

The Imperial Shih Tzu Information Society was formed as a place where the pet owner can come and find out information about our wonderful little breed of dog.

Our trusted breeders are here to support the pet owner with any questions they may have. Please do not be afraid to ask anything that is on your mind.

ISIS Dog Cookbook

One of our great people is making a fantastic cookbook for our breed. Marcia Hedrick thank your for this idea. You are always full of fun ones!!!

She would like everyone to send in at least one

Our Articles Page is under construction and will soon have articles and you can read about many items.

Our Health and Wellness page will also have health related articles. We hope that they will help you and your puppy.

Our chat is also a great place for instant help from many knowledgeable people that have been in the dog world of a long number of years.

We hope that you will take advantage of everything we have to offer.

recipe but would be absolutely thrilled if you would send in three.

A snack

A Entrée

A dessert- This should be great fun!!

Come on everyone participate! It will make it so much more special.

ISIS Quilt Raffle

Marcia the Great!!! Has offered to make and raffle a beautiful quilt to be raffled off as a fundraiser for our Society. This is so generous of her and her sister.

She would like to be sent two clear pictures of our dogs from each of us.

She will need them by June 20th.

The quilt will be in our society colors and have the pictures of our dogs on it.

This is so special. I personally would LOVE to have this quilt. What a beautiful memory to have!

Everyone had better buy a ton of tickets if they want to win it away from me! I plan on buying a lot!

The tickets will go on sale soon and the price of the ticket will be posted as that

Emailing Photos and Photo Sizing

Have you ever received a photo in the mail and you could not see the whole picture? Well that is because the person sending the photo did not change the Pixel Dimension.

When emailing photos you need to make sure that they are small enough in size that the person receiving them can see the whole picture without having to scroll up or down or sideways.

These instructions are for Photoshop products but all most all programs can do the same kinds of things. You will just have to find in

your program where to change the image size.

With Photoshop you can right click on the top blue bar of the photo and then select "Image Size." Or click on Image and then Image Size. You then need to change the Pixel Dimensions to 600 x 400.

When you change one, either the width or the height, it changes the other one automatically. Just make sure that they are at least the 600 x 400 dimensions. Then click OK to save your size.

You will then need to

re-save your photo. I usually save it as the same name with the word "small" after it so I can differentiate between the two photos. Then you are ready to send the picture as an attachment in your email. Most emails have a paper clip that you click on to attach your file. You will then need to find the file on your computer and click OK or Attach and your file will then be attached to the email.

When scanning a

Buster at the picnic from Cathie Owens and
Bobcatsworld.com

photo, use 300 as your resolution. This will give you a good copy of your picture. I have experimented with different resolutions and for files size and quality the 300 resolution works really good. Remember the higher the resolution the larger the file size.

Resolution is also know as dpi (dots per inch).

Make sure that you constrain proportions or your picture could be skewed.

You can also change the size of the picture from this Image Size screen by typing in the width that you want to be the finished size.

Just a side note: With your computer mouse, the left click is for ac-

tion and the right click is for menus. That is unless you have changed your mouse to be used with your left hand and have reversed the actions.

Next news letter we will cover photo touch ups. In the mean time if you have any questions or need help please feel free to contact me.
